1. General Information

This manual explains how to use the application which allows you to buy vehicles from the vehicles rented at least once by the Eiffel Corp's employees. You can read all the information about the vehicles, add them in the shopping basket and finally buy them if the bank confirms the transaction.

2. How to use the system

The main page displayed using the application is illustrated in the figure below.

This is the homepage where all the vehicles available for purchase are displayed. The main informations in the screen are:

1. The vehicle's model and price, where you can choose the availables vehicles;
2. The description of the vehicle;
3. Delete buttons to remove vehicles from the shopping cart;
4. The shopping cart;
5. The total price of the vehicles in the cart;
6. The BUY button, where you have to click if you want to buy the vehicle in the shopping cart;
7. The ADD TO CART button, where you have to click if you want to add the selected vehicle to the shopping cart;
8. The image of the selected vehicle.

3. Buy the vehicle

To complete your order, click on the "BUY" button. You will be redirected to a page of the type shown in the figure below.

From here you can see:

1. Small summary of the basket, with the model of the vehicles added.
2. The total price.
3. Field where to insert your account number.
4. Button to abort the payment.
5. Button to confirm the payment.
6. Selector of the currency to make the payment.

After the insertion of the bank account number (10 digits) the confirm button can be clicked. In this scenario there are two situations: the payment is accepted from the bank or is rejected. After the click one message box is displayed showing that information.
